Partly of course, the reason lies in Arab lack of sense of proportion. But mainly the reason seems to be that the army chiefs always knew that the non-military actions of the fedugera were apt to provoke much stronger reactions by us than would seem to be justified in the security Council decisions.

Thus, the nature of the Israel action which began yesterday could not have been mistaken by any genine, honest observer who knows his facts. Israel was out to destroy the nests of fedugera activity an. this could only be achieved by dislodging the Egyptians from such bases as Ras En Nakhb and Kuntilla – from where infiltration was directed to the southern Negev — and Kuselma, south-east of Nitrans. from where the anti-Israel activities were directed in the area, One must presume that other centres of disruptive anti-Israel activities were directed in the area, One must presume that other centres of disruptive anti-Israel activities were directed in the area, One must presume that other centres of disruptive anti-Israel warfare will also be dealt with by the Israel Ille their actions to have a very clear moral background. Viewed from this angle, the present campaign is clearly not a war but a sort of punitive expedition. Adhering closely to the rules, the Army used no outright offensive weapons, such as alreraft. The use of planes was authorised only today, after the Egyptian Air Force made its appearance over our troops.

Such niesties may seem superfluous to outsiders, but they are of extreme importance to the peace of mind of the Israell. The operations in Sinal are not a preventive war, and were not planes.

**Rates Approved** Citrus Savers The Knesset Finance Committee yesterday decided "to take note of" the decision of the Ministerial Economic Committee authorising an increase in electricity rates.

The Ministerial Committee on September 30 approved a hike of 14 per cent for business premises and 12 per cent for domestic consumption. It decided that there should be no increase in rates for agriculture and industry.

The Finance Committee's decision of yesterday supersedes one taken at a meeting of the committee on October 1, when an opposition gained a majority for a motion asking the Ministerial Committee to reconsider the question. Investors in the Citrus
Groves Savings Scheme are
to be granted a tax deduction of 15 per cent of the
amount invested. An administrative order to this effect
will be published shortly by
the Minister of Finance, it
was announced yesterday.

The project is carried out by the "Hadarei Israel Company," which is owned by the Development Authority, Yakhin-Hakal and Pardess Syndicate. At the end of the fiscal year 1955/6 a total of IL500,000 had been invested in the project together with the Citrus Grove Savings Scheme for Moshavot Workers. It is expected that by the end of this fiscal year, the total will have reached ILi.5m.

"Owner of Building" — This term will be taken to mean anyone who is entitled to receive or does receive rent from a building; either in his own right or through an agent, a trustee or an attorney; or anyone who would be entitled to receive rent from a building were it rented. In connection with a building which has a lessee or a sub-lessee for a period exceeding 15 years; the said lessee or sub-lessee. "Window" or "door"-This term is tak-

en to mean any opening in the outer walls or roof of the building.

(a) Tenants of buildings or part of them must protect panes of win-dows and doors of the building in accordance with the instructions in these regulations.

(b) Windows in staircases, or in other parts of the building which are not under the authority of the tenants, must be protected by the owner of the building.

(a) Window panes should be protected in one of the following ways:

 (1) Paste thick material on the area of the pane;

(2) Paste strips of material, at least 5 cm. wide, in criss-cross fashion so that the uncovered area of window pane is no more than 5x6 cm.;

(3) Paste netting over the area of the window pane and in addi-tion act according to para (2);

(4) Fix both sides of the pane, co-vering the whole area, with screens whose smallest hole is 1.5x1.5 cm.

(b) In addition to sub-regulations
(a)(1), (2) or (3), screens whose smallest hole is 3x3 cm. should be fixed over buildings used for display and advertising.
(c) The material, strips of material, netting and screens mentioned in sub-regulations (a) and (b) should be pasted or fixed so that their edges cover at least 3 cm. of the frame of the pane.

4. Instead of protecting the window panes as stated in Regulation 3, persons may remove the window panes or change them for celluloid, or trapaulin, or plywood or any material except glass which has been authorized by the head of Haga, or by someone authorized by him.

5. Persona ignoring the instructions of these regulations or neglecting to comply with them, are liable to three months im-prisonment or a IL75 fine or both, and if the regulations were transgressed during hostilities, he is liable to one year impri-sonment or a IL300 fine, or both.

These regulations will be called "Civil Defence Regulations (Protection of Win-dow Panes), 1956."

# The Civil Defence Law - 1951

Regulations regarding behaviour of the public in public places

By virtue of the power vested in me in accordance with para 27(c) of the Civil Defence Law 1951, I hereby issue the following regulations:

Definitions

1. In these regulations:

ions:

1. In these regulations:—
"Public Place" — Streets including vehicles found on streets, cafes, theatres, cinemas or any other place used or intended to be used as a place of assembly and any place equipped with a siren.

"Air Raid Warning" — Signal specified by Haga as a sign of alarm.
"All Clear" — Signal fixed by Haga as an all clear sign.

"Shelter" — including jublic shelters or refuges.

an all clear sign.

"Shelter" — including ; ublic shelters or refuges.

"Siren" — including every instrument capable of emitting sounds.

2. Upon the sounding of an alarm or during an attack, every person not on Haga duty who is in a public place must immediately enter the nearest shelter and if no shelter is available — the nearest building. Such person must not leave the shelter or the building before the All Clear or instructions from a member of Haga on duty.

2. (a) Assembling in public places which have been hit during an attack is forbidden.

(b) When Haga activities have already been undertaken at a damaged building, no one should participate in life-saving or any other activity, except if so instructed by a member of Haga on active duty.

4. No one should sound the siren in a public place during hostilities or Haga maneouvres except if clearly instructed to do so and then only strictly in accordance with such instructions, or for the purpose of giving the "Warning" or the "All Clear" signal according to arrangements fixed in advance by the Head of Haga or the District Cammander concerned.

5. These regulations (Behaviour in Public Piaces), 1984."

maintain such an organization in order to put a force of ambushing mairanders in the field. Partly of course, the reason lies in Arab lack of sense of proportion. But mainly the reason seems to be that the army chiefs always knew that the non-military actions of the fedagees were apt to provoke much stronger reactions by us than would seem to be justified in the yeas of Europeans and Americans, as witnessed in the season in the season in the Security Council designa.

Thus, the nature of the Israel action which began yesterday could not have been mistaken by any genuine, honest observer who knows his facts. Israel was out to destroy the nests of fedagees activity an this could only be achieved by dislodging the Egyptians from such hases as Ras En Nakhb and Kuntilla — from where infiltration was directed to the southern Negev — and Kuselma, south-east of Nitzans, from where the anti-Israel activities were directed in the area One must presume that other centres of disruptive anti-Israel warfare will also be dealt with by the Israel Army.

The most important foreign Communist colony, apart from Russia's, are East Germans. Since the Soviet blocarms deal Abdul Nasser has been easing out West Germans, although he has not yet bothered to establish diplomatic relations with East Germany.

Therefore, Mr. Sulaberger pointed out, Abdul Nasser is clearly deceiving either himself or the West when he states blandly that the "Communists are very weak in Egypt." The West cannot afford to be deluded, the writer stressed.

Abdul Nasser is certainly not yet a satellite or a puppet. But he is being pushed into an uncomfortable corner, Mr. Sulzberger concluded.
